

## Aeonium 'Mint Saucer'

### **NOMENCLATURE**

Botanical Name: Aeonium 'Mint Saucer'

Common Name: Green Aeonium

### **DESCRIPTION**

This is a beautiful light green colored perennial with densely-set succulent leaves in large rosettes on short stems. Use it in a succulent garden, or as an attention-drawing accent in containers. This plant performs especially well in coastal gardens, but it can perform equally well inland when given some cover from frost and excessive sunlight.

### **CULTURAL INFORMATION**

Light Exposure: Sun or Partial Shade

Water Requirements: Moderate

Sunset Zone: 15-17, 20-24

USDA Zone: 25 to 30 F ( 29b)

### **PLANT ANATOMY**

Foliage Growth Cycle: Evergreen

Plant Habit: Upright

Growth Rate: Moderate

Height (at Maturity): 2-3 ft.

Width (at Maturity): 1-2 ft.

### **FLOWER CHARACTERISTICS**

Color: Yellow

Season: Summer

### **LEAF CHARACTERISTICS**

Color: Green

Shape: Spoon-shaped

Texture: Succulent, glossy

Length: 10"

### **SPECIAL NOTES**

Full sun only in coastal or cooler climates. Provide partial shade in hot climates.
